EXPERIENCE

RIVER BEND DATA SOLUTIONS | Junior Software Engineer
May 2022 – Aug 2022 | Hyderabad(Remote)
• Developed 'iClinic', a cross-platform patient & hospital management system. Worked on React-Native, NodeJS, Express JS and MongoDB.
• Designed and developed fundamental business logic, including authentication handling, API design, Schema Design and basic DevOps administration.
• Improved App performance by 25% by utilising React Native best practices, including improved caching and Lazy Loading.
• Nominated as Junior TechLead for a period of 2 Months, tasked with junior team management, reporting of progress to senior team, handling of sprint meetings and assigning of work within Agile Development Setting.

WINGGIT.INC | Front End Web Developer
Aug 2020 – November 2020 | Bangalore, KA
• Designed and Implemented a fully responsive UI for Winggit's e-commerce website, that handles the reselling of used books.
• Worked Primarily with Javascript, HTML, CSS & Django. Used Figma for UI/UX.
• Delivered website 2 months ahead of schedule, improving predicted sales by 400%.

PROJECTS & OPEN-SOURCE WORK

DIJKSTRA | Founder & CTO
February 2023 – present | Bangalore | github.com/Dijkstra-Edu
• Built a Full-Stack Educational App, along with an Admin panel for uploading posts on DSA preparatory work & Solutions of Leetcode and Hackerrank Problems, along with other information pertaining to Interview Preparation.
• Started a GitHub organization for the same, currently catering to 30 junior CS students. Currently in development and Testing, set for App Store release in 2024.
• Currently handling devOps transition to Azure Cloud; handling complete systems administration for the same.
Tools Used: React Native JS, NodeJS, ExpressJS, MongoDB, HTML, CSS, Jest, Azure Cloud, Netlify Cloud, Postman, Git and GitHub.

APPFLOWY | Open Source Software Developer
March 2023 – present | Singapore (remote)
• Handled Unit Test cases on Flutter to improve code coverage by 18% for AppFlowy's flutter bloc editor.
• Made a total of 6 Pull Requests addressing various bugs in the code base.
• Drafted 2 technical articles and 3 major documentation changes.
Tools Used: Flutter, Dart, Rust, Codecov, Postman

FFCS API USING TYPESCRIPT
Github: github.com/JRS296/FFCS-TypeScript-API
• Designed API routes for VIT's FFCS course registration system as part Dyte's technical round hiring process.
• Built using Typescript and tested using PostMan and Jest Testing framework.
• Dockerized and published API environment to Docker Hub.
Tools Used: Typescript, MySQL, NodeJs, ExpressJs, Postman

RESEARCH & PUBLICATIONS

AUTOMATED MP3 TAG EDITOR VIA DATA MINING | Researcher & Developer
Jan 2022 – June 2022 | Vellore, TN
Worked with **Shivansh Sahai** and **Dr. Swarnlatha P** to create **Automated Mp3 Tag Editor**, a tool which scrapes metadata of music tracks from various sources, and classifies them via Machine Learning, whilst automating the entire process.
DOI: 10.4018/978-1-6684-8098-4.ch012

EDUCATION

VELLORE INSTITUTE OF TECHNOLOGY, VELLORE
B.Tech Computer Science Engineering w/ Specialization in IoT
CGPA: 8.58
2020-2024| Vellore, India

BISHOP COTTON BOYS' SCHOOL
2005-2020| Bangalore, India
12th Boards: 93.5% (ISC)
10th Boards: 91.2% (ICSE)

SKILLS

Programming
Java • Python • Javascript • TypeScript • C/C++ • HTML • CSS • SQL (MySQL & SQLite3) • R/R Studio • MatLab • PhP • Julia
Frameworks & Technologies
React JS • React-Native • Git & GitHub • NodeJS & ExpressJS • MongoDB • SASS • Tailwind • REST API Design • Docker • ElectronJs • Flutter & Dart • Django • Selenium • Jest • Azure Cloud • AWS Cloud • Linux • Scrum & Agile Methods • DevOps • Systems Design • Figma • Tableau

ACHIEVEMENTS

• Completed **Microsoft Azure Administrator Associate (AZ-104)** & **Azure Fundamentals (AZ-900)** Certification offered by **Microsoft**.
• Over **1400 contributions** on GitHub, top 4.4% for repositories contributed to (66).
• Systems Design and Algorithm Design Certified by **AlgoExpert**.
• Completed Accelerated Computer Science Fundamentals Specialization offered by University of Illinois **(GS ECHP-23 Program)**
• Completed Mathematics for Machine Learning Specialization offered by Imperial College London **(GS ECHP-23 Program)**
• **Top 3%** of Leetcode by Problems Solved
• **5 star** Problem Solving in Hackerank
• Senior Core Member at **IEEE-TEMS**
• Open Source Fellow at **Epic Games**
• Open Source Contributor at **YAFS - Yet Another Fog Simulator**
